DETAILED ACTION

1. This communication is responsive to your amendment and remarks filed November 22, 2004. Claims 1-27 are currently pending in this application.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-27 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for field shaping coils disposed between a gradient coil assembly, does not reasonably provide enablement for field shaping coils disposed within a gradient coil. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make the invention commensurate in scope with these claims. The relative position of the gradient coils with respect to the field shaping coils is depicted in Fig. 1 and described at paragraph 31 of the specification. According to applicant's own description, coils 54 are not gradient coils but gradient shield coils. Coils 52 are gradient coils. While it is proper to describe the combination 50 (52 and 54) as a gradient coil assembly. It is erroneous to refer to coil 54 as a gradient coil. Thus, the last recitation of claim 1 for example, is not supported by the specification, as the field shaping coils are not between a gradient coil and the patient bore enclosure. The proper description would be, for the field shaping

coils to be disposed within the gradient coil assembly or for the field shaping coils to be between the gradient shield coils and the patient enclosure.

Response to Arguments

4. Applicant's arguments with respect to claims 1-27 filed 11/22/04 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
